

Maftuna Vohidjonovna

Chemical & Materials Engineering Student · Frontend Developer · Open-Source Contributor

vohidjonovnamaftuna@gmail.com · github.com/Domirando · domirando.org · Uzbekistan

EDUCATION

Chemical & Materials Engineering, B.Eng.

Aug 2024 – Present

[New Uzbekistan University](#)

- Conducting research on Ba & Sb co-addition effects in Al-20Mg2Si alloy, quantified via SEM/XRD phase analysis.

AI Summer School

Jun – Aug 2025

[Shenyang Normal University, China](#)

- One-month intensive programme on cutting-edge AI research.

IT Diploma — Web & Mobile Development

Sep 2017 – Jun 2024

[Al-Khwarizmi IT School, Uzbekistan](#)

- 5-year CS curriculum; specialised in Android dev (Java/Kotlin) in final two years.

PUBLICATIONS

Quantum Computers: Evaluating the Impact on Humanity and Our Readiness

2024

[Thematic Journal of Applied Sciences \(TJAS, ISSN 2277-3037\) · Research Article](#)

- Examines qubits, superposition, entanglement & quantum cryptography; evaluates societal readiness for next-generation computing.

Open Blinds

2024

[Personal Essay](#)

- A candid narrative on pain, resilience, and the drive to keep going — written at 2:30 AM when sleep felt too far away. Demonstrates reflective writing and the ability to communicate deeply personal experiences with clarity.

EXPERIENCE

Open-Source Developer — Rust / Linux

Jun – Dec 2025

[Uzinfocom OSS · Full-time](#)

- Delivered 3+ Linux utilities in Rust adopted by the OSS community, reducing sysadmin boilerplate via safe, idiomatic APIs.
- Contributed to government-linked Linux tooling deployed across Uzbekistan.

Student Researcher

Apr 2026 – Present

[New Uzbekistan University](#)

- Primary investigator studying Ba & Sb co-addition effects in Al-20Mg2Si alloy; measuring microstructural and phase reaction outcomes.

University Applicant

Jan 2022 – Jun 2025

[Worldwide Applications](#)

- Applied to 10+ universities globally; received offers from CUHK, NYU Shanghai, University of Cincinnati, Beijing Institute of Technology, and others.

Frontend Developer

Jul – Aug 2022

[USOFT · Full-time](#)

- Shipped production features on 2 live projects (Xonsaroy & Garant) in ReactJS and VueJS, meeting all sprint deadlines in a 2-month engagement.

Front-End Mentor

Sep 2021 – May 2022

[Global Digits / Al-Khwarizmi IT School](#)

- Designed & taught web dev curriculum to 15+ students; all completed their first end-to-end web project by course end.

Front-End Intern

Dec 2021 – Apr 2022

[Digital Panda](#)

- Built 4 CRUD apps and cloned 2 production-grade web apps; gained hands-on React & REST API experience in an agile team.

ACHIEVEMENTS & LEADERSHIP

1st Place — Digital Generation Ladies Hackathon

2023

[BirQadam EdTech Platform](#)

- Led front-end of BirQadam (EdTech for university-bound students), winning 1st among 20+ teams. Prize: educational trip to UAE.

Hackathon Organiser

Dec 2022

[Winter Web Hackathon](#)

- End-to-end organised a hackathon uniting 30+ developers — logistics, judging criteria, and mentorship.

SKILLS

Languages & Frameworks	React, JavaScript ES6+, Rust, Java/Kotlin, Python, HTML5/CSS3, Tailwind CSS, VueJS
Hardware / Engineering	Digital Logic Design, VLSI, Semiconductor Physics, Circuit Analysis, Verilog/HDL, Materials Engineering
Tools & OS	Git, GitHub, Linux, NixOS, VS Code, WebStorm, npm/yarn
Other	Technical Writing, Community Building, Tech & Math Teaching, CEFR English Mentor, Interpreter
