WORK EXPERIENCE

Student Researcher New Uzbekistan University Studying the effect of simultaneous Ba & Sb addition on microstructural and phase reaction characteristics of Al-20Mg2Si alloy.	Apr 2026 — Present <i>Tashkent, Uzbekistan</i>
Open-Source Developer Independent Actively contributing to open-source projects — building tools, writing docs, and engaging with developer communities worldwide.	Dec 2025 — Present <i>Remote</i>
Open-Source Developer Uzinfocom OSS - Developed applications on NixOS Linux using Rust. - Contributed to open-source tooling in a production environment.	Jun 2025 — Dec 2025 <i>Tashkent, Uzbekistan</i>
AI Summer School Attendee Shenyang Normal University Attended AI Summer School exploring cutting-edge AI topics in an international academic setting.	Jun 2025 — Jul 2025 <i>Shenyang, China</i>
Hackathon Organizer Winter Web Hackathon Led end-to-end organization — from logistics to judging — uniting developers to build, compete, and learn.	Dec 2022 <i>Tashkent, Uzbekistan</i>
Hackathon Participant & Winner Digital Generation Ladies & others - Participated in multiple hackathons over 3 years. - Won Digital Generation Ladies with BirQadam — an EdTech platform to boost and motivate school students and help them stand out to worldwide universities. - Role: Front-End Developer. Prize: Educational trip to UAE.	Jan 2022 — Jun 2025 <i>Tashkent, Uzbekistan</i>
Frontend Developer USOFT Shipped features on Xonsaroy & Garant projects in ReactJS and VueJS.	Jul 2022 — Aug 2022 <i>Tashkent, Uzbekistan</i>
Front-End Intern Digital Panda Built CRUD systems and cloned widely-used web apps under team mentorship.	Dec 2021 — Apr 2022 <i>Tashkent, Uzbekistan</i>
Front-End Mentor Global Digits Led web development curriculum for students at Muhammad al-Khwarizmi IT School, held after regular lessons as an extra class.	Sep 2021 — May 2022 <i>Tashkent, Uzbekistan</i>

EDUCATION

B.Sc. Chemical & Materials Engineering New Uzbekistan University In Progress.	2022 — Present <i>Tashkent, Uzbekistan</i>
Diploma — Computer Science, Web & Mobile Development Al-Khawrezmi IT School - Built a rigorous foundation in CS and web development at one of Uzbekistan's leading IT schools. - In the final two years, majored in mobile development — building Android apps with Android Studio and learning Java and Kotlin.	2017 — 2022 <i>Tashkent, Uzbekistan</i>

Worldwide Applications

- Received offers from CUHK (Hong Kong), NYU Shanghai, University of Cincinnati, Beijing Institute of Technology, New Uzbekistan University, and more.

PUBLICATIONS

Quantum Computers: Evaluating the Impact on Humanity and Our Readiness

Published

Thematic Journal of Applied Sciences (TJAS, ISSN 2277-3037)

Research Article

- Explores qubits, superposition, entanglement, quantum cryptography, and humanity's readiness for next-generation computing.

Open Blinds

Personal Essay

- A personal narrative about pain, resilience, and the drive to keep going.

SKILLS

Programming Languages:	React, JavaScript ES6+, HTML5, CSS3, Tailwind CSS, Rust, Java / Kotlin, Python
Hardware & Engineering:	Digital Logic Design, VLSI Concepts, Semiconductor Physics, Circuit Analysis, Materials Engineering, Verilog / HDL
Tools & Workflow:	Git, GitHub, VS Code, WebStorm, npm / yarn, NixOS, Linux
Activities:	Open-Source Development, Tech Teaching, Math Teaching, Hackathon Organization, Community Building, Technical Writing, Sales Agent, CEFR Speaking & Writing Mentor, Interpreter
