

Maftuna Vohidjonovna

Chemical & Materials Engineering Student · Frontend Developer · Open-Source Contributor
vohidjonovnamaftuna@gmail.com · github.com/Domirando · domirando.org · Uzbekistan

EDUCATION

Chemical & Materials Engineering, B.Eng. <i>New Uzbekistan University</i> Research: Ba & Sb co-addition effects in Al-20Mg2Si alloy (SEM/XRD). Offers from CUHK, NYU Shanghai, U. of Cincinnati & BIT.	Aug 2022 – Present
IT Diploma — Web & Mobile Development <i>Al-Khwarizmi IT School, Uzbekistan</i> 5-year CS curriculum; specialised in Android dev (Java/Kotlin) in final two years.	Sep 2017 – Jun 2022

PUBLICATIONS

Quantum Computers: Evaluating the Impact on Humanity and Our Readiness <i>Thematic Journal of Applied Sciences (TJAS, ISSN 2277-3037) · Research Article</i> Examines qubits, superposition, entanglement & quantum cryptography; evaluates societal readiness for next-generation computing.	2024
Open Blinds <i>Personal Essay</i> A candid narrative on pain, resilience, and the drive to keep going — written at 2:30 AM when the weight of the world calls for steadiness. Demonstrates reflective writing and the ability to communicate deeply personal experiences with clarity.	2024

EXPERIENCE

Open-Source Developer — Rust / Linux <i>Uzinfocom OSS · Full-time</i> - Delivered 3+ Linux utilities in Rust adopted by the OSS community, reducing sysadmin boilerplate via safe, idiomatic APIs. - Contributed to government-linked Linux tooling deployed across Uzbekistan.	Jun – Dec 2025
Student Researcher <i>New Uzbekistan University</i> Primary investigator studying Ba & Sb co-addition effects in Al-20Mg2Si alloy; measuring microstructural and phase reaction outcomes.	Apr 2026 – Present
Frontend Developer <i>USOFT · Full-time</i> Shipped production features on 2 live projects (Xonsaroy & Garant) in ReactJS and VueJS, meeting all sprint deadlines in a 2-month engagement.	Jul – Aug 2022
Front-End Mentor <i>Global Digits / Al-Khwarizmi IT School</i> Designed & taught web dev curriculum to 15+ students; all completed their first end-to-end web project by course end.	Sep 2021 – May 2022
Front-End Intern <i>Digital Panda</i> Built 4 CRUD apps and cloned 2 production-grade web apps; gained hands-on React & REST API experience in an agile team.	Dec 2021 – Apr 2022

ACHIEVEMENTS & LEADERSHIP

1st Place — Digital Generation Ladies Hackathon <i>BirQadam EdTech Platform</i> Led front-end of BirQadam (EdTech for university-bound students), winning 1st among 20+ teams. Prize: educational trip to UAE.	2023
Hackathon Organiser <i>Winter Web Hackathon</i> - End-to-end organised a hackathon uniting 30+ developers — logistics, judging criteria, and mentorship. - AI Summer School — Shenyang Normal University, China (Jun–Aug 2025): international programme on cutting-edge AI research.	Dec 2022

SKILLS

Languages & Frameworks	React, JavaScript ES6+, Rust, Java/Kotlin, Python, HTML5/CSS3, Tailwind CSS, VueJS
Hardware / Engineering	Digital Logic Design, VLSI, Semiconductor Physics, Circuit Analysis, Verilog/HDL, Materials Engineering
Tools & OS	Git, GitHub, Linux, NixOS, VS Code, WebStorm, npm/yarn
Other	Technical Writing, Community Building, Tech & Math Teaching, CEFR English Mentor, Interpreter
